Introduction The breeding is default: Advanced: 1 day 18 hours 150 137.500 110.000 Rare Epic Rare Entbrat Epic Rare Entbrat Epic Rare Entbrat Dawn of Fire Composer Entbrat Epic Rare Entbrat Dawn of Fire Composer Entbrat Epic Rare Entbrat creates a very sweet giant. The great attic of this huge Monster vibrates the world's particles from the clouds in the sky to the stones in the ground. Entbrates are not particularly intelligent. « Entbrat is a Quad Element Monster from the Island of Plants. Description Enbrat is a huge round lime humanoid monster. The features include a cavernous mouth, two large lower teeth, curved brown horns with a leaf on each side, orange lips, leafy green hamster, bright eyes and four fingers feet with yellow nails. This monster, probably, has the strongest affinity with the Plant element of all the monsters of the original game along with Potbelly and Blasoom. The ridge of leaves shakes the arms and gives the impression of a beard under the chin. The Enbrat has two horn groups; two small vestigial crevices above the eyes, and two huge curved horns that emerge from both sides of the head. These larger horns have the consistency and consistency and consistency and consistency and consistency and consistency and two huge curved horns that emerge from both sides of the head. he has an umbilical «innie.» Wave back and forth to the rhythm of the song of an island, swinging its heavy arms. While singing, she sometimes closes her eyes and squeezes her fists to emit a particularly powerful note. On the Island of Tribals, the Enbrat occasionally scratches the belly. Song Audio Example: Voice actor: Erick Desjardins The contribution of the Enbrat to the song of an island is a noisy and noisy vocal line, recognizable for its rombant quality and prolonged notes. On Tribal Island, the song changes to "Hey-yo, heey-yo-hah!", similar to Mammott on Air Island. He's got a deep, loud voice. Breeding The Enbrat can be bred using monsters that combine to provide all elements Plant, Earth, Water and Cold without repeating any. The following pairs of 2-element monsters can be used to breed an Entbrate: + Shrub and Maw + Oaktopus and Drumpler + Furcorn and Fwog However, the combination of a 3-element monster with 1 element has a higher success rate: Bowgart+Noggin and T-Rox+Potbelly are the best combinations, as having timelower reproduction in case of reproductive failure. There is also a small possibility to produce an Entbrat from a failed breeding attempt. failed. A monster of non-single elements and entbrat. Like all Quad Element monsters, enbrats are difficult to raise and these combinations can cause a parent monster as offspring. However, if you are lucky enough to have already a Entbrat and a rare entbrat, the two can be bred together to create another entbrat with a 100% success rate. The rare version of any monster can be used for breeding instead of the common version. Advance rate and maximum income rate of income is in coins per hour and depends on happiness% well as the maximum coins earned. Level table food: 660, 660, 680, 680, 1280 More information can be found in the feeding article. I like every monster has different things that likes it is positioned near the monster, the monster's happiness will increase by 25%. Place more than one of the same favorite objects near a monster will still only increase its 25% happiness. If there is a tree tree on the island, objects should not be close to monsters like. Rare Entbrat was placed on the market for 200 diamonds on November 25, 2014 for 4 days. Despite his biography, Entbrat's song does not seem to have any effect on the environment. The entry is the first quad-element monster to have a rare counterpart, as well as the first quad-element to have an epic counterpart. The Entbrat egg is similar to the Potbelly egg. On February 21st the Monster Handlers released a puzzle entitled «Name that monster», composed of a single bar of sheet music that corresponded to the song of a certain monster. It was discovered that the answer was the second half of Entbrat's song Island. There is an Entbrat plusie currently available, as you can see here. More information on the Enbrat could also be seen on this link. A group of Entrbati is called a Each entbrat represents a season and is slowly losing leaves by type. The common entbat is green and represents spring, the rare entbat is orange and yellow, representing falling and losing more leaves and the epic entbrat is pale without leaves representing the winter tunnel tunnel
